Chevrolet announces

A NEW SERVICE POLICY

The Chevrolet Motor Company and its dealers are pleased to announce a new service policy—one of the most liberal ever offered on a low-priced automobile.

Put into force as a written agreement given to the purchaser by the Chevrolet dealer when the car is delivered—it offers the following provisions:

1 Every Chevrolet owner receives his car from the dealer in perfect condition—thoroughly lubricated, properly adjusted, and ready to operate efficiently from the first mile of ownership.

2 Every Chevrolet owner is entitled to free inspection and adjustment of his car at the end of the first 500 miles of usage.

3 Every Chevrolet owner is entitled to free inspection of his car every 1000 miles thereafter, so long as the car is in operation.

4 Every Chevrolet owner is entitled to free replacement of any part which may prove defective in workmanship or material, within the terms of Chevrolet's standard warranty. This includes both parts and labor.

5 Provision number 4 will be carried out by any Chevrolet dealer in the United States. As a result, the Chevrolet

owner may travel to any part of the country, with assurance that the guarantee on materials and workmanship will remain in force.

This new policy constitutes proof of Chevrolet's high quality—for such liberal provisions could only be made in connection with a car built of fine materials to exacting standards of workmanship.

Back of this policy, and assuring its successful operation, is one of the most complete and efficient service organizations in the world.

There are more than 10,000 Authorized Chevrolet Dealer Service Stations in the United States alone. Each employs skilled mechanics thoroughly trained at Chevrolet Service Schools. Each has specially designed tools and machinery developed exclusively for Chevrolet service work. And each has on hand, at all times, an adequate stock of genuine Chevrolet replacement parts.

Chevrolet's flat-rate charges, including both parts and labor, are the lowest in the industry on many service operations!

In considering the purchase of a low-priced automobile, think what this service means—in terms of lasting satisfaction, as well as in increased economy.

Chevrolet cars range in price from \$495 up, f. o. b. factory, Flint, Michigan.

A SIX IN THE PRICE RANGE OF THE FOUR

Alfred Hanson, Grayling, Mich.

AVOIDING LOSS FROM CALLED BONDS

When you read over a bond circular or a bond you will frequently see some such phrase as "Redeemable on any interest date at 102 and interest." "Callable at 108 plus accrued interest." "This means that if the borrower desires to pay back the money before it is due—before maturity—he may do so by giving notice of call, provided that he complies with the redemption provision agreed upon when issuing the bonds. Usually a premium is paid to the investor, in addition to the principal, on bonds called before maturity. This compensates him for the trouble of relieving his money."

It is customary to give public notice in the press on three successive dates prior to the call date so that persons owning bonds of that issue may send them in at the proper time. Interest ceases on the date of call so that if an investor fails to send in his bond and relieves his money by the call-date he loses interest on his money from that date. If he clips his coupons regularly he will discover his oversight on the next interest payment date, for on sending in his coupon it will be returned to him with the information that the bond was called six months ago. If he neglects both to send in his called bond and to clip his coupons, he may lose interest indefinitely and be unable to claim it after the call date.

How then is an investor, involved in his own affairs, to avoid loss of interest in case one of his bonds is called and he fails to see the notice?

The investor, in the first place, should know if his bonds are "callable," that is, if they are subject to call. If they are, he should keep his eyes open himself or use the services of his investment banker. Many reliable investment houses maintain statistical departments for the purpose of helping their clients; sometimes for a small charge, others offer the service gratis. The investor should list his "callable" bonds with such an investment banker and ask to be notified in event of a "call." The responsibility is then off his shoulders for the investor will watch for the notice and give him due notice when his bonds are called. By having this notice in ample time the investor is able to secure a profit (the premium on the called bonds) and to reinvest without loss of interest.

In these days of declining interest rates nearly all bonds contain the "callable" or redemption feature and it is up to the investor to avoid loss through idle funds by having his investments watched carefully.

What is a Husband?
A husband is a man who comes home two hours late and wonders why his wife hasn't got back.
—San Francisco Chronicle.

DRESSING UP THE DAILY MEAT DISH

Meat may be dressed up just as attractively as any salad or dessert you can imagine, using the very foods which are on the menu. Choose an accompaniment that will contrast the meat in flavor, texture, and color and you have the requirements for a good garnish, for it will appeal to both the taste and the eye. The accompaniment may be arranged in a very attractive way on the platter with the meat and served with it.

The National Live Stock and Meat Board suggests some accompaniments for meat that are also garnishes:

Beef. With roast beef serve spiced raisins, tomato piecilli, spiced peaches or pears, canned quinces or spiced kumquats. Horseradish sauce with a hot roast. With broiled steak serve fried mushrooms, grilled tomatoes, stuffed potatoes.

Pork. With roast pork serve currant jelly on fried apple rings, cranberry sauce, or apple sauce or baked apples.

Lamb. With roast lamb serve circles of baked orange topped with mint jelly, spiced quinces or kumquats. With lamb chops serve currant jelly on fried rings of pineapple or slices of fried tomato, or apricots or sweet potato puree and sauce bernaise or mint-oil.

Ham. With baked ham serve baked pineapple, mustard pickles, baked orange slices, spiced raisins or fruit in jelly syrup. With broiled ham serve scalloped crushed pineapple and glazed carrots.

Veal. With veal chops serve spiced gooseberries, tomato pickles or spiced peaches. With pressed veal serve hard cooked eggs.

Liver. With liver serve bacon curls.

Cold Meats. With cold meats serve canned prunes with ginger or fruit conserves.

THE POLL ON PROHIBITION

The Literary Digest is conducting a poll among twenty million men and women in the United States on the prohibition question. It is the most gigantic effort to determine public sentiment that has ever been attempted. The results should be as nearly correct as any human agency could make them.

Every portion of the country will be penetrated, every strata of society will be reached. It is being conducted so that those voting will not have to attach their names to the ballots. There will be nothing to prevent them from giving a correct expression of their convictions on this great social problem.

The results of the poll will not change existing laws. New legislation will be needed for that. It will probably not change many opinions, but it will reveal how a vast portion of our people are thinking after a ten year's trial as a dry nation.

Konjola Ends Agony Caused By Rheumatism

Lady Suffered For Five Years—Found Relief Would Never Be Her Position

MRS. MAGDELENA ROBERTS

Don't have the fear that there is no escape from rheumatism, even though medicine after medicine treatment after treatment has failed. Put your faith in Konjola, as did Mrs. Magdalena Roberts, 10109 Forest avenue, East, Detroit. Think of her joy when she uttered these glad words: "No wonder I am grateful for Konjola. For five years I endured agonies, at times the pains in my back were so terrible that I was sick all over. The pains attacked every part of my body. My stomach was in bad condition. Nothing helped me, and I was about to give up in despair when I heard of Konjola and its amazing success."

"How glad I am that I put this wonderful medicine to the test. Why, the very first bottle did me a lot of good, and then the improvement was rapid. In just six weeks the rheumatism was conquered and my digestion was restored. I am feeling just fine, and I think it my duty to tell the world what this remarkable medicine, Konjola, did for me."

Konjola is sold in Grayling at the Mac & Gidley drug store and by all the best druggists in all towns throughout this entire section.

PROMPTNESS

"In all things be prompt. Get the thing done. DO IT NOW. Delay is fatal. The only way for a busy man to get through with his work is to take up one thing at a time and stick to it until he puts it through. Never mind if the work is difficult—it must be done."—Walter H. Cottingham.

Domestic Tolerance
Housekeeping isn't such a bad job after you learn that nothing happens in the dusting waits another day.
—Nashville Tennessean.

SAVINGS PASSBOOKS SOUGHT BY CROOKS

Use Them to Steal Money by Forged Slips—Should Be Guarded as Carefully as Cash.

Continued vigilance in safeguarding savings pass books, as well as blank and cancelled checks, against theft by crooks, who use this material in forgery operations, is urged on bank customers by James E. Baum, Deputy Manager of the American Bankers Association, in charge of the Protective Department. This department is continually vigilant in promoting means, both among bankers and the general public, to thwart the operation of bank crooks. It annually investigates hundreds of crimes against banks and is responsible for the majority of arrests among this class of criminals.

"In a large majority of cases of forgeries on checks or savings withdrawal orders investigated by the American Bankers Association, stolen blank checks or savings pass books were the forgers' chief stock in trade," Mr. Baum says. "In many instances the temptation presented through the careless handling by depositors of cancelled or blank checks or pass books so that they fell into the hands of others was the immediate stimulus for the dishonest person to commit their first criminal offense."

Banks should educate their depositors to exert the same degree of care in handling these instruments and to avoid leaving them about unguarded as they exercise in respect to actual money because they represent money, he declares.

For dealing with the bank robbery situation, Mr. Baum recommends the use of electrical alarms actuated by tampering with the wires of cash drawers and also wider adoption of the plan of state police forces now employed in a few states, declaring that last year in seven eastern states where state police forces were maintained there were only 20 bank holdups as against 164 similar attacks perpetrated against banks in five states in the central and far west, where banks are denied the advantages of the speedy and coordinated action given by statewide police forces.

"The records of the American Bankers Association Protective Department reveal that for many years the odds in favor of state police protection have been at least 8 to 1 when measured by the experience of banks in states where efficient police protection is missing in the rural districts," he says.

THE THINKER LEADS MODERN PROGRESS

By JOHN G. LONSDALE
President, American Bankers Association

"His greatest need of the world today is interpreters of our times—modern Daniels in agriculture, finance, politics, industry—who can see through the fog and haze that enshroud our difficult problems and advise, instruct, and influence those who are either indifferent or limited in their perceptions."

Through the thinker and the John G. Lonsdale interpreter, a number of questions are disclosed or puzzling conditions explained in logical light. The American people are so constituted that they can meet and combat any situation once it is known and understood. "It is the unknown that comes like the thief in the night and brings disaster."

Some one has defined prosperity as something the business men create for the politicians to take credit for. But America's present-day prosperity can be defined as a product resulting from the business man's ability to study and to interpret. Huge corporations maintain research staffs and special bureaus to interpret the times for them. Disaster looms in the offing for any industry that goes blithely on its way day after day without due regard to significant trends in trade and business.

Keeping Up With Change
Leaders of finance have discovered that they cannot remain passive in an age when all the rest of the world is in a transitional stage. The modern banker not only must know about the changing styles in other lines of business, but above all must be alert to the transformations which are taking place in his own. He must be a man of keen, broader vision, because the order of the day is for larger units of service. Mergers and consolidations have taken place in great numbers. We now talk of billions where a few years ago we talked of millions. We have only begun our changes. What disposition is to be made of the many problems that their bring will depend in large measure upon our leaders, upon the students and the interpreters who can read accurately the signs of the times, so that we may base future actions and hopes upon their wisdom. The quickest way to go to the top is to go to the bottom of things, and let us hope that among them will be found many who will not only aspire to leadership but will be successful in reaching their goal.

DEER HUNTERS INCREASE 4,000

The number of deer hunters in Michigan increased almost 4,000 in 1929 over the previous year according to a report of the Conservation Department. The report shows that 62,987 deer hunting licenses were sold last November as compared with 59,073 in 1928. Of the licenses issued last fall, 62,536 were resident and 351 were non-resident licenses.

DIPPING INTO SCIENCE

Meals of 500 Pounds
You have imagined often the tremendous size of some of the prehistoric animals; but what did they eat, and how much? Scientists agree that these sixty foot monsters, called diplodocoids ate vegetable matter and the average daily portion must have been approximately 500 pounds. Fossils of these animals furnish interesting data.
(© 1930, Western Newspaper Union.)

Free Want Ads. to Subscribers

During the month of March all "For Sale" and "Wanted" want-ads in the Avalanche will be run free to paid-in-advance subscribers. This gives our subscribers an opportunity to advertise any articles they have no further use for—churns, plows, cars, furniture, phonographs and records, farms and other land, etc. Also, there will be many things you will want. Someone, undoubtedly, has just such an article as you are wanting and by putting a little want-ad in our paper you will find just what you want.

Of course those in business will understand this offer does not apply to articles which they carry in stock for sale. It does apply, however, to articles not connected with their business which they wish to dispose of, or something not connected with their business which they wish to buy.

This offer is not made as an inducement for anyone to pay their subscription—we don't have to. The Avalanche, we believe, has the best paid up subscription list in northern Michigan.

It is simply a good-natured effort to extend the usefulness of our Want-ads, and is another added feature to make the Avalanche more valuable to its readers.

Registration Notices

LOVELLS TOWNSHIP
To the Qualified Electors of the Township of Lovells, Crawford County, Michigan.

Notice is hereby given that I, the undersigned township clerk, will upon any day, except Sunday, receive for registration the name of any legal voter in said township not already registered who may apply to me personally for such registration. Provided, however, that I can receive no names for registration during the time intervening between the second Saturday and day of election, April 7, 1930.

Notice is further given that I will be at my home on
Tuesday, March 18;
Saturday, March 22;
Saturday, March 23;
Saturday, March 29;
Saturday, March 30;

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES
OF THE AVALANCHE OF 23 YEARS AGO.

Thursday, March 21, 1907

Born, March 12, to Mr. and Mrs. Henry Stephan, a son.

Our mechanics are beginning to expand their muscles—and prices—in anticipation of a big boom in building.

A nice sugar snow of four inches covered the earth here Tuesday morning but was nearly gone by night.

The saw mill at Lovells stopped very suddenly Friday morning, when the engine broke, but no one was hurt.

A. J. Stitwell has sold his livestock to Henry Bates, which changes the firm name to Bates & Bechraft. It is a good property.

The bill forbidding the killing of deer for five years in Crawford, Oacoda, and Montmorency counties passed the house last week and will probably become a law.

The new drop curtain at the opera house is in place and quite satisfactory to the management. It will be a change at any event, the advertising cards being a new feature here.

The trial of Frank L. Young, Monday, before Justice Niederer, for malicious injury to a dwelling, resulted in a verdict of guilty and sentence of ninety days in the Detroit house of correction.

Hubbard Head of South Branch was in town Saturday the first time this winter. He says caring for forty head of the best young stock in the country has kept him out of mischief. He is growing fat and more jolly than ever.

On account of the repairs being incomplete in the Danish Lutheran church, there will be no service at the

church next Sunday. It is hoped that it will be ready for communion service the next Thursday evening at 7:30.

The James McMillan Memorial Association is now ready to receive subscriptions for the erection of a fitting memorial to Michigan's last Senator. Amounts from one dollar up will be received at this office and forwarded to Hon. Peter White, Treasurer of the association. All subscribers will receive an engraved certificate of membership in the association.

Miss Katherine Clark gave a birthday party in honor of her 5th birthday, March 19. The little ones had a very pleasant time.

Last Tuesday evening a party of young girls gave a farewell party in honor of Miss Anna Rasmussen, who will leave for her future home in Washington the last of the week. All of those present report an enjoyable time.

Frank Bell stopped on his way home from Detroit and Lansing, where he has been in the interest of certain mining legislation, long enough to shake hands with a few of his old friends here. His appearance indicates the "prosperity" which we are glad is his and that he has reached a high place with the bar in the Upper Peninsula.

The formal dedication of the hall of the Grayling Association of Men and Boys, last week Wednesday evening, was a pleasant and interesting occasion and augurs well for their success. The hall was crowded, exhibiting the interest of our people in the work proposed. The Citizens band and Prof. Craven with his mandolin, enlivened the meeting with excellent music.

How Women Lose Fat in England

GAIN PHYSICAL CHARM

How would you like to lose 15 pounds of fat in a month and at the same time increase your energy and improve your health?

How would you like to lose unhealthy fat that you don't need and don't want and at the same time feel better than you have for years?

How would you like to lose your double chin and your prominent abdomen and at the same time make your skin so clean and clear that it will compel admiration?

How would you like to get your weight down to normal and at the same time develop that urge for activity that makes work a pleasure and also gain in ambition and keenness of mind?

Get on the scales today and see how much you weigh—then get an 85 cent bottle of Kruschen Salts which will last you for 4 weeks. Take one-half teaspoonful every morning in a glass of hot water and when you have finished the first bottle weigh yourself again.

Now you can laugh at the people who pay hundreds of dollars to lose a few pounds of fat—now you will know the pleasant way to lose unsightly fat and you'll also know that the 6 vitalizing salts of Kruschen Salts that your blood, nerves and glands must have to function properly—have presented you with glorious health.

After that you'll want to walk around and say to your friends, "One 85-cent bottle of Kruschen Salts is worth one hundred dollars of any fat person's money."

Leading druggists America over sell Kruschen Salts—you can always get it at Mac & Gidley's Drug Store.

THE BATTLESHIP AS A SCHOOL

According to Dr. Frank Crane, noted physician and writer, the thing that most impressed him while on a visit to an American man-of-war, was not the big guns nor the enormous power developed, but rather the educational opportunities enjoyed by our bluejackets. Dr. Crane learned that fifty-five trades, as well as many academic courses were being studied, regular classes being formed, with officers acting as instructors, making the ship not only a magnificent fighting machine but, in effect, a military college, the bluejacket's time being about evenly divided between work, play, study and sleep.

Inside Information

Group all early-maturing crops together in the truck garden and immediately after harvest turn down or remove the plan remains and plant a different crop in their place.

Clutch or pads for straining milk should be used only once as it is difficult to sterilize them after use. They may be purchased from any dairy supply house at a reasonable cost.

Spring greens that grow wild will soon be available for the trouble of picking them. Dandelion, poke, mustard, land cress, and various others are valuable in the diet and appetizing as a change.

It is a help in training a small child to dress himself, if the fastenings of his clothes are always found in the same place. Buttons for trousers should be placed where he can reach them easily and in the same place on all his trousers.

To clean upholstered furniture, use either a vacuum cleaner or a brush. A soft brush is best for velvet and velour, a stiffer brush for tapestry, and other strong, firm materials. When convenient, take upholstered furniture out of doors occasionally and beat with a flat carpet beater.

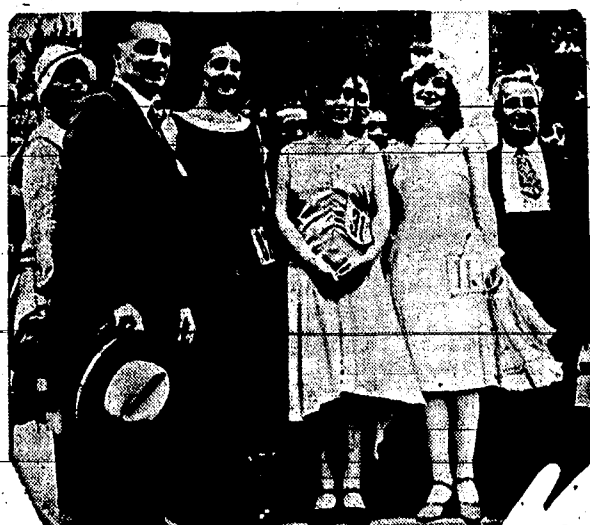

For variety in menus in which pork is the main dish, good flavors are cabbage, celery, cumberlins, green peppers, parsnips, sweet potatoes, apples, and pineapple. These may be cooked in any of the ways you are accustomed to serving them, and used singly or in combination.

The vogue for tomato cocktails, made of the juice of canned tomato, seasoned with celery, onion, horseradish, and salt and pepper, is excellent because it adds to the day's supply of three valuable vitamins—A, B, and C. These vitamins are retained by tomatoes even when they are cooked or canned, and the inclusion of tomato in the diet is recommended by all nutrition specialists.

Air for Apples

Assist stored apples to breathe correctly by furnishing plenty of air. Proper ventilation will aid in keeping the fruit longer in storage. If the humidity is not right the apples should be spoiled.

Even Turkey Has Beauty Contests

Another indication of the modernization of Turkey under the rule of Mustafa Kemal—a national beauty contest, in the country where women were formerly veiled in public. From right to left, the prize winners: Miss Feriha Tawfik, first; Miss Semine, second, and Miss Arakel, third prize.

Smart Street Dress

A smart crepe de chine street dress for the spring, featuring a full skirt and a fitted bodice. The red and tan scarf collar completes this dress.

SPEARING SEASON OPENS APRIL 1ST

The spearing season for non-game fish in non-trout rivers and streams of Michigan will open April 1.

"During the period from April 1 to May 31, spearing with or without the use of an artificial or jack light, in all non-trout rivers and streams will be permitted for the catching of non-game fish including bullheads, carp, catfish, cisco, dogfish, garfish, muskellunge, pickerel, pike, grass pike or pickerel, pilotfish, redhorse, sheepshead, smelt, suckers and whitefish," says the 1930 edition of the Department of Conservation's Digest of Fish Laws.

All fishing will cease April 1 in all inland lakes of the state until June 5, except as designated pike and trout lakes in which fishing will be permitted after May 1 for perch, walleyed pike, grass pike, muskellunge and non-game fish, and all species of trout. The limit catch of pike is five per day. Each pike must be at least 14 inches long.

The 1930 edition of the Fish Law Digest is being distributed this week to all conservation officers, county clerks, license agencies and others interested. The digest contains a list of all designated pike and trout lakes, and designated trout streams.

Specialize

It is impossible for a man who attempts many things to do them all well.—Xenophon (400-350 B. C.)

COMPARE VALUES BEFORE YOU BUY AN AUTOMOBILE

**Low charges for distribution of the new Ford
save you at least \$50 to \$75 in addition to
the many savings in making the car**

THESE are days when every dollar counts. The period of reckless spending is over. People are going back to the good old-fashioned principles of thrift and economy. Value is again being carefully considered.

Nowhere is this more important than in the selection of an automobile. For the purchase of a car represents a considerable investment. It should not be decided on hurriedly, but only after analyzing every important factor that concerns cost, value and performance. The time to do this is before buying—not afterward when it is too late.

ON THE basis of cost, performance and the actual comparative worth of every part, the new Ford is a value far above the price you pay. It is made of better materials and with greater care and accuracy because of the recognized efficiency and economy of Ford manufacturing methods.

The value of these methods is known and understood by millions of people. It is not generally realized, however, that these same principles of efficiency and economy are applied also to every step in the distribution of the Ford car. The low cost of selling, financing time payments, etc., means a direct saving to you of at least \$50 to \$75 in addition to the money saved by Ford economies in making the car. Here are three reasons why this is so.

(1) The Ford dealer does business on a smaller margin of profit because of the greater number of

cars he sells. His discount or commission is the lowest of any automobile dealer. The difference in your favor, ranging from 25% to nearly 50%, comes right off the price you pay for the car.

(2) The Ford charges for financing are low.

(3) No expensive extra equipment is needed when you buy a Ford. The car leaves the factory ready for use. The f.o.b. price includes a Triplex shatter-proof glass windshield and an extra steel-spoke wheel, in addition to four Houdaille double-acting shock absorbers and fully enclosed four-wheel brakes. Any accessories you may wish for your individual taste are sold considerably below the usual prices. None of these charges for selling, financing or accessories is marked up or increased to cover a high trade-in allowance on a used car.

Get all the facts, therefore, before you buy and figure out just what you are getting for your automobile dollars. Go beyond the f.o.b. price and find out how much more you pay the dealer than the dealer pays at the factory. Analyze the used-car allowance. Compare all charges—item for item—value for value.

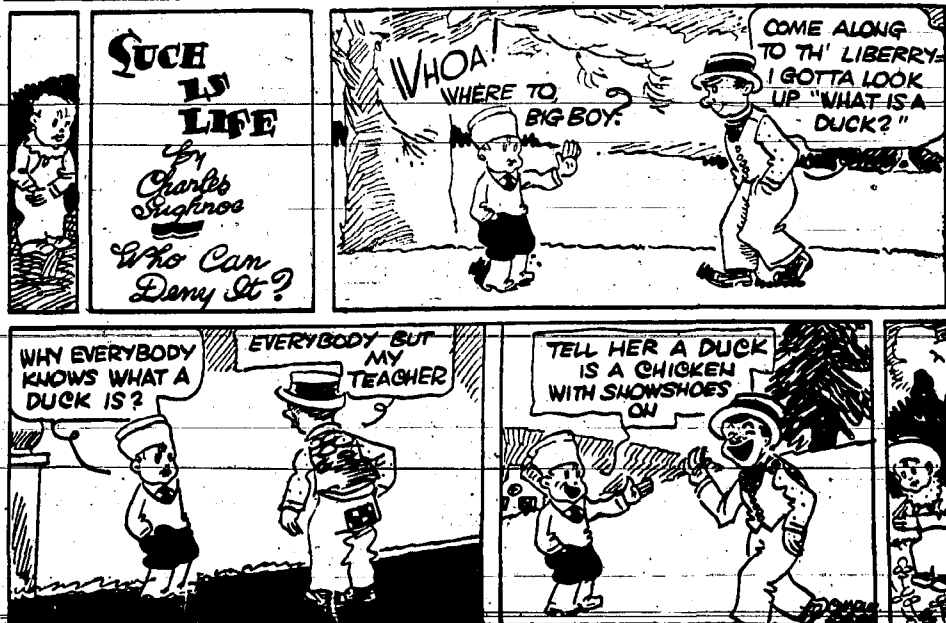

When you do this you will have a new appreciation of what the Ford Motor Company and Ford dealers are doing to keep down the cost of Ford cars. You will also know why it is possible to put so much real value into the new Ford and still retain the low price. The money you pay goes for value in the car. It is not wasted in excessive costs in manufacturing or selling.

The Log Office Says

Interesting bits of news and comment about Northeastern Michigan gathered by the E. M. T. A.

J. E. RICHARDS NEW PRESIDENT E.M.T.A.

John Emmet Richards, owner and publisher of the Alpena News, Alpena, Michigan, was elected president of the East Michigan Tourist Association at a meeting of the Executive Committee of the organization yesterday afternoon, at Saginaw, to fill the office left vacant by the recent removal of Floyd A. Allen of Detroit to California which necessitated his resignation. John C. Nagel of Detroit, was elected as new member of the Executive Committee, as representative from that city. Other officers elected were Edward Schuch of Saginaw, 1st vice-president; Al H. Weber of Cheboygan, 2nd vice-president; H. N. Butler of East Tawas, 3rd vice-president; and H. A. Bauman of Grayling, 4th vice-president. T. F. Marston was re-elected secretary-treasurer. Other members of the Executive Committee are C. M. Bulard of Flint and W. J. Antell of Brooklyn.

The advertising schedule for the coming year, including a comprehensive campaign in national magazines, newspapers of the Central West and the city of Detroit, as well as street car and bus advertising in Detroit, was adopted by the committee. An unusual feature of the season's program will be a publicity float, consisting of truck and trailer, on which will be constructed a scene of outdoor life in East Michigan, to make a tour of Ohio and possibly other mid-western states. The schedule as adopted also included considerable radio broadcasting of the attractions of this territory as a vacationland. Besides this program of the East Michigan Tourist Association as an individual, co-operative advertising for the state of Michigan will be carried in conjunction with the other three tourist associations of the state. East Michigan's share of which will appear in Ohio newspapers.

Special advertising features sent out by the E.M.T.A. will be a hotel and cottage directory, guides containing the state highway map, state conservation maps, and sundry small folders and stuffers as well as the "All-Michigan Booklet" which is used universally by all four associations.

Count the Cost NOW!

flies and adding new ones. The trout season opens May 1.

PORT AUSTIN HEIGHTS SELLING MORE FARMS

Reports from the territory around Port Austin Heights say that the sale of lots to out-of-county and out-of-state buyers has been lively lately and that more farms have been sold in this district this spring than in a number of years past.

Tourist Trade Increases Building
"The tourist trade is the biggest one asset to business in our town," said P. J. Courmyer, editor of the Rose City Review when he called at this office last week. "Already all of the building trades are active on the properties which are being improved or constructed in preparation for our summer season. The Courmyer development, that more farms in the Rose City vicinity are occupied this year than for a considerable period heretofore."

Localities Urged To Pool Efforts
That individual localities of Michigan would do well to pool their efforts at advertising their attractions to out-of-state readers, is the opinion expressed here recently by an earnest student of the tourist industry. "If specific towns and counties all over Michigan would place all of their advertising, that they wish to have national distribution, in the hands of the four tourist association of the state, said this publicity expert, 'they would find that their dollars brought more visitors. Then let them supplement this national advertising, if they like, by booklets or folders on their own localities which they would distribute to the tourists when they arrive in their vicinity.'"

"Michigan-Wright-O"
"Happy is the man who can call Michigan his home; thrice happy is he who will bring others here to enjoy the blessings of this wonderful state. This is not a boom for the railroad nor a real estate agency, or the sole ambition is the greatest good to the greatest number. It is not necessary to paint lurid advertisements nor distribute fake handbills; the facts alone are sufficient to prove Michigan's supremacy in nearly every line over all the Eldorados of the land," by J. C. Wright.

Farm Notes

Do not wash eggs for incubation. If the shells are dirty, reject the eggs, or scrape the dirt off with a knife.

Wheat bran contains much phosphorus, a medium amount of protein, and is of a bulky nature. These characteristics make it a valuable ingredient of all dairy rations.

You can't count your chicken before they're hatched if an incubator or hen is used, but you can count them if day-old chicks are bought from a good hatchery. Each year more and more farmers are buying day-old chicks instead of incubating the eggs. If you buy chicks, be sure to get them from a reliable breeder who has healthy stock and whose hatchery is managed under sanitary conditions. Chicks should be ordered early so they can be delivered in March or April. Late-hatched chicks rarely do as well as early hatched ones.

"Livestock owners are cautioned against placing dependence on alluring claims for medicinal cures or remedies for infectious abortion," says Dr. J. R. Mohler, Chief of the Bureau of Animal Industry, U. S. Department of Agriculture. "Money spent for such products is likely to be wasted, not to mention possible injury that may be done to livestock."

It was formerly thought that common salt was essential in the successful culture of asparagus but no experimental work has conclusively shown this to be the case. It has been shown repeatedly, however, that a supply of potash in fertilizers is of great value. It is true that asparagus does not seem to be injured by considerable amounts of salt, but at the same time, neither is it particularly benefited by it. The best fertilizer treatment to give asparagus is a complete mixture moderately high in nitrogen and phosphorus and high in potash.

Dairymen could reduce their feed bills materially if they would grow and feed more protein in the form of legume hays, says the U. S. Bureau of Dairy Industry. An acre of clover hay will furnish about 3 times as much digestible protein as 1 acre of timothy hay, and an acre of alfalfa hay nearly 7 times as much. In fact per 100 pounds of crude digestible protein, alfalfa hay may even compare favorably with the high-protein concentrates, such as linseed meal and cottonseed meal.

Cattle or sheep affected with foot rot should be promptly separated from healthy animals, as this disease spreads rapidly. In the early stages, thorough cleansing of the affected foot and an application of a carbolic acid solution (1 ounce to a pint of water), clean stabling, and laxative feed will often remedy the trouble. Preventive measures consist in cleaning and disinfecting quarters where affected animals have been stabled, and avoiding infected premises and pastures. Cattle and sheep in big herds are more liable to foot rot, says the U. S. Department of Agriculture, and the disease seems to spread more rapidly where animals are kept closely confined.

Nowadays a child picks up geography from a rumble seat, arithmetic from a dial phone and the alphabet from a radio log—Kokomo Dispatch.

Etta Nowlin, Clerk.

LOST \$11,000 BY EAST MICHIGAN

More than eleven thousand dollars from the state, that might have been spent to advertise East Michigan as a vacation land, has been permanently lost to East Michigan, according to an interpretation of the state law by Attorney General Wilbur M. Brucker, it was announced by T. F. Marston, secretary-manager of the E.M.T.A. today.

"Since the eleven thousand dollars was not matched dollar-for-dollar by the citizens of East Michigan, so that the tourist association could have the funds necessary for placing the advertising," Mr. Marston explained, "this amount, although it was available, must now revert to the state."

This ruling, which has just recently been handed down by the attorney general's office, makes East Michigan's course for this year a clear and definite one, according to the tourist association secretary.

"The loss is a wholly regrettable one," said Mr. Marston, "but coming at this time as it does, its announcement serves as a warning to citizens of our section who wish the tourist business this season to surpass that of last year. It will, I should judge, act as a spur to manufacturers, merchants, bankers, hotels, public utilities and others interested in the increased prosperity brought by the tourist trade, to increase their financial support to the cooperative advertising work of the association. The E.M.T.A. is the clearing house, the central agency, for preparing and placing the advertising. Its operation depends entirely upon the funds raised and put into its hands by the forward-looking citizens of East Michigan. Whether we are able this year to avail ourselves of the sum allowed us from the state, namely \$25,000, depends upon whether or not our members and others who are interested, come forward with an amount sufficient to meet the state appropriation."

The East Michigan Tourist Association, according to the statute, could have drawn from the state last year, the total sum of \$25,000. However, only \$13,400.02 was used, so that the unexpended balance of \$11,599.98 reverts to the state making that sum a complete loss to East Michigan. "Of course," Mr. Marston pointed out, "the association carried a much larger advertising and publicity campaign than the amount thus indicated. But a large portion of the total expenditure could not qualify under the provisions of the act."

LOVELLS NEWS

Myron Gregg has returned to Cadillac after spending the winter in Lovells.

Mr. and Mrs. Thomas Griswold of Bay City spent a few days with Mrs. Griswold's parents, Mr. and Mrs. A. R. Caid.

Mr. Roy Small and sons Donald and Ted, of Mio, visited Mr. Small's daughter, Mrs. Francis. Nephew a few days.

Mr. and Mrs. Clarence Stillwagon gave a Pedro party for their friends. A nice lunch was served, and all had a lovely time.

Mrs. Gideon Kibler was called away on account of her brother being ill. Mr. and Mrs. Glen Gregg, have gone to Flint.

Mr. Joseph Doby was a caller in Sigbee Sunday.

Bill Page is driving a new Graham-Paige sedan.

"RED" DAY FAILS TO ARRIVE

The "red" uprising the communist leaders in Moscow predicted would take place in the big industrial centers in the United States on March 6, failed miserably of fulfillment.

Of course great crowds assembled in the cities to witness the threatened demonstrations by communist followers in this country, but 99 per cent were peaceable American citizens, who after witnessing the scene for a short while turned and left.

Thousands of workmen are out of work today, but that has not made them "red" minded. Their situation is bad, but they are enduring their troubles in silence, their pride in American institutions not allowing them to be drawn into acts of violence.

America's big heart for her jobless will correct this situation just as quickly as possible. President Hoover has declared the end of depression is near and that already the dawn of a new day may be seen.

America has the finest workers of any country in the world. We take pride in their capacity to handle their jobs, their willingness to tackle the almost impossible, and the ties that bind us together as a nation compels us to bend every energy possible in bringing back the prosperous days of old. As a citizen you have your part in the great work that is to be done.
